You will get the connect button enabled click on connect

If required refresh this page to connect button is taking some time to enable

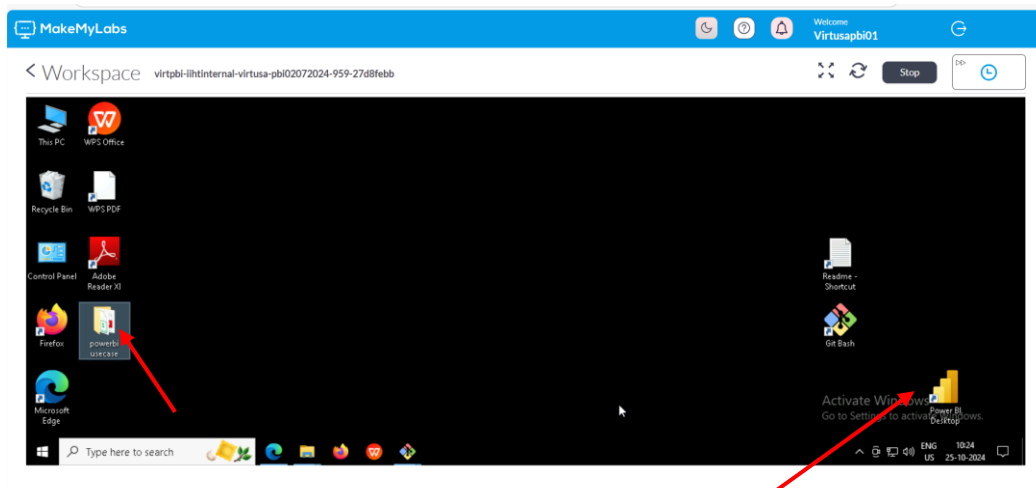

Click on connect button

Please one or two minutes to power on the machine

Your environment will be opened

You can see the power bi icon on the desktop

From the screen shot you can see the power bi folder this where your assessments files are you will need to complete all the tasks and save all the file in the respective folder .

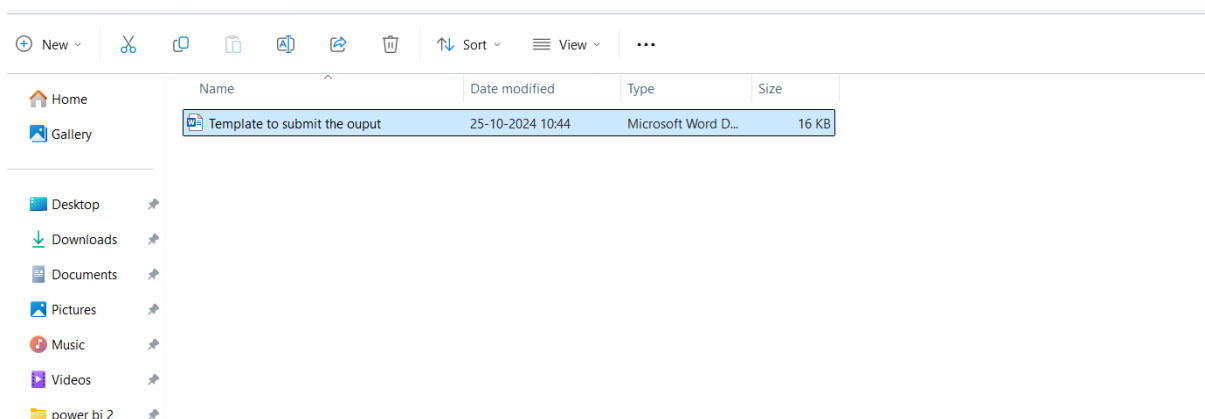

Name	Date modified	Type	Size
 casestudydocument	25-10-2024 10:48	File folder	
 dataset	25-10-2024 10:48	File folder	
 output files to be placed	25-10-2024 10:47	File folder	
 Readme	24-10-2024 15:37	Text Document	3 KB

? File Organization:

- **Case Study File Folder:** This folder contains the question files you need to refer to for solving the case study.
- **Dataset Folder:** This folder contains the dataset files in .csv format. You will use these for data analysis.
- **Output Files to Be Placed Folder:** This is where you need to save your output files, including:
 - Power BI files (.pbix).
 - CSV files with the output data.
 - Images of visualizations created.
 - Queries used in the analysis (to be documented in a separate file or inside the document).

? **Readme File:** The readme file provides hints and guidance to help you solve the problems.

Output Files to Be Placed Folder:

If you open the file you can see the place where you must place your name and email address and submit the images and queries used which implementing power bi

executives) could be saved within the Power BI file but could also be exported as individual view files or PDF reports.

Your name →

Your email id →

Screen shot Template

Screen shot of your implementation goes here

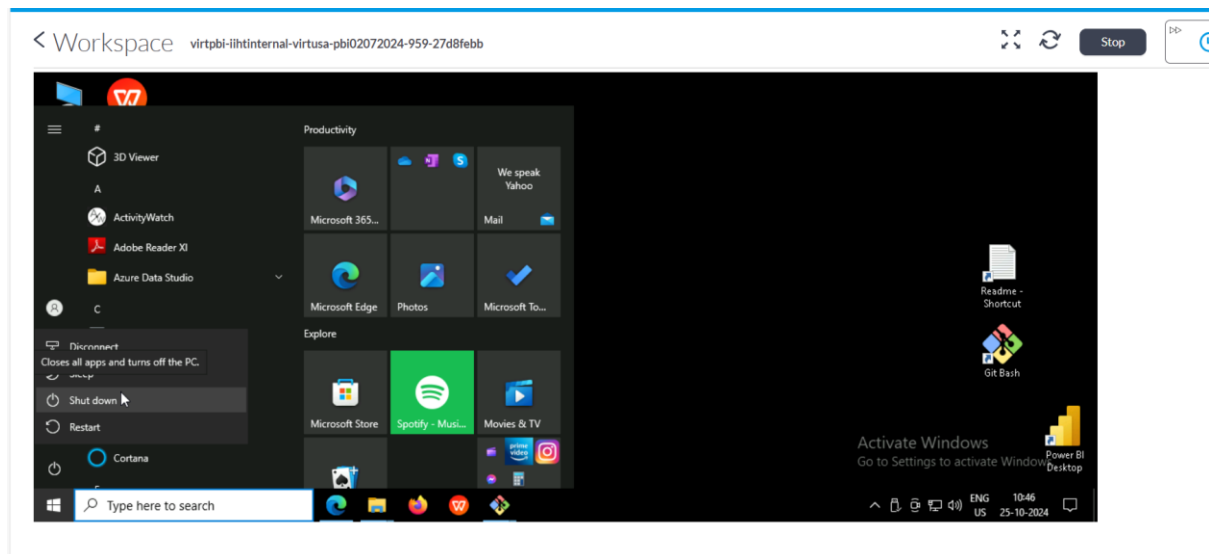

Query use for implementation goes here

Save the file .

Your final output submission should look like this `implementation` file should saved inside the `folder`

Name	Date modified	Type	Size
output	25-10-2024 11:24	Microsoft Power BI...	13 KB
outputchart	25-10-2024 11:22	JPG File	16 KB
outputcsv	30-09-2024 10:26	Microsoft Excel Co...	45 KB
Template to submit the output	25-10-2024 11:20	Microsoft Word D...	16 KB

The power pi file ,charts and graphs and the csv files and template document file must be updated and saved

Save your work and shutdown the virtual machine .
